## Prohibition and Hotel Accommodation

What is the policy of the party advocating Prohibition in respect to hotels? Have they a policy which takes in account the maintenance of hotels in the various centres of population in the province? Hitherto, the advocates of restrictive legislation, or at all events the professional organizations which push measures of that kind, have evaded all responsibility and have left the provision of hotel accommodations to private enterprise in those places where there propaganda has met with success.

It is only right that the temperance party should officially deal with this matter. The advocates of Prohibition profess to attack the sale of liquor only. They cannot get away from the fact however, that not only would prohibition stop the legitimate sale of liquor, but it would destroy or depreciate the hotel trade. The Government has no supervision over unlicensed hotels, but it exercises complete control over hotels operated under the provisions of the Liquor License Ordinance. This ordinance covers not merely the sale of liquor, but every part of the hotel. A hotelkeeper holds his license conditionally on his adherence to the law, and he must comply with the instructions of the License Department in regard to the conduct of his house in every part thereof. If a guest in a hotel is dissatisfied with the food, accommodation, service, sanitary arrangements or safety of that house he can lay an information with the License Department. His complaint will be investigated, and if proved, the hotel keeper will be compelled to comply with the law. If this supervision is necessary in the public interest under existing conditions, why should it not be equally necessary

under the operation of prohibition? The circumstances in so far as the public is concerned, remain the same. The only change in the situation being that the powers previously vested in the License Department are no longer in existence. Who will protect the public in such a case? Are the promoters of prohibition prepared to take up this matter of the continuance of hotels and to undertake a proper measure of responsibility for it? If not, how do they propose to safeguard the interests of the public in regard to this important matter?

The fact that the license is granted, not solely for the privilege of retailing liquor, but for securing the carrying on of an hotel in all its parts, means that either the promoters of prohibition are ignorant of the consequences of their action or they do not scruple to deliberately mislead the public in regard to this matter. In either case it is incumbent upon them to come out with a plain statement of their policy with respect to hotels. There is no getting away from the fact that hotels are required providing as high a standard of accommodation, service, and equipment, as will supply the needs of the community both resident and transient, without proper hotel business is impeded, and the whole community put to as little inconvenience as possible.

In considering this matter of prohibition voters should keep in view, therefore, that a vote in favor of the Liquor Act is not one solely for the abolition of the sale of liquor, but for the abolition of the hotel as at present established and supervised by law. Regulation by the authorities and redress for members of the community are possible under existing conditions, but the carrying of prohibition away with both these satisfactory features, it is only right, therefore, that the promoters of prohibition should be asked to produce their policy in regard to the hotels. Are they prepared to undertake any responsibility or to endorse legislation which would make it compulsory for municipalities under prohibition to establish and operate such hotel accommodation as would supply the needs of their municipalities?

Under existing conditions people know exactly where they stand as regards hotels, but in the absence of a plain statement of the policy of the promoters of prohibition they are entirely in the dark as to what will be done under the operation of the measure. The safe course for the people to follow is to hold fast to the which they have rather than permit the entrance of conditions which certainly do not make for progress. Keep in mind, therefore, that a vote for prohibition is a vote against the continued existence of the hotel. A vote against prohibition, on the other, will preserve the hotel and enable the License Department to continue its guarantee to the public as to the conduct of the hotel. Prohibition districts have suffered the standard of hotels to sink to a low level. There is no good reason, therefore, why the injurious action of prohibition in respect to hotels should be carried to greater lengths, and electors should see that they register their vote x No against the Liquor Act. Grand Trunk Pacific Transconti-  
ental Train Service.

A general change of time, effective June 6th, between Winnipeg and Prince Rupert and connecting at Prince Rupert with Grand Trunk Pacific Coast steamers for Vancouver, Victoria and Seattle, is announced. This summer timetable announcement calls for triweekly service leaving Winnipeg 6 p.m. and Regina 10:30 p.m. Sundays, Tuesdays and Fridays; leaving Saskatoon and Edmonton Mondays, Wednesdays and Saturdays and arriving Prince Rupert Wednesdays, Fridays and Mondays, and as stated before, connecting there with Grand Trunk Pacific palatial steamers "Prince George" and "Prince Rupert", for Vancouver, Victoria and Seattle. On every Tuesday night out of Winnipeg, until further advised, there will be an electric lighted tourist car running through to Prince Rupert, in addition to the triweekly through standard electric lighted sleepers and electric lighted coaches. There will be a diner between Winnipeg and Edmonton and Edmonton and Prince Rupert.

Indications for travel to the Panama Pacific Exposition and Southern Pacific point, namely, San Francisco, Los Angeles and San Diego, are very promising and already great numbers have taken advantage of the very low rates prevailing.

The new route through the Yellowhead pass of the Rocky Mountains with minimum grades and the opportunity of seeing Mount Robson, the highest peak in the Canadian Rockies, coupled with a breezy sea voyage of thirty hours along the route which has become known as the "Norway of America", are very strong features to be considered from an educational as well as from a scenic standpoint.

The Grand Trunk Pacific are offering free booklets descriptive of this route, which are known as "California 1915" and "The North American Alps".

The man who could run a newspaper to suit everybody went to heaven long ago.
